OBJECTIVE

Experienced Java Developer with over **2 years** of experience in the areas of software development, system design, unit testing, research, and developing **back-end** applications us ing iterative methodologies such as **Scrum** and **Agile**.

Hold strong experience in creating software solutions that have helped clients improve processes and operations; bringing on board new and innovative ideas, and tackling challenges across the back-end using the newest technologies, and best practices.

SKILLS

- **Programming Languages:** Core Java, J2EE
- **Frameworks:** Spring Boot, Spring Security, Spring MVC, Microservices, Bootstrap
- **Web Technologies:** JSP, JSTL, Thymeleaf, Freemarker Templates, CSS, Basic JavaScript, jQuery
- **Database Systems:** MySQL, Oracle Database, PostgreSQL, Solr
- **Cloud Technologies:** AWS EC2/RDS, DigitalOcean Storage
- **DevOps & Version Control:** Jenkins, Rancher
- **Operating Systems:** Linux(Ubuntu/Debian), Microsoft Windows
- **Project Management Software:** ClickUp, Trello
- **Other Tools & Technologies:** Hibernate, Flyway, Internationalization (i18n), Docker, LDAP, Tomcat, JUnit 5, Git

PROJECTS

- **Internal Control System - German Federal Employment Agency**　　　　　　　　*2023 - 2024*
Tools: SpringMVC, Spring Security, JPA, MySQL, Oracle DB, LDAP, Bitbucket, Jenkins, Nexus Repository, Kibana

  ○ Developed a resilient back-end system, focusing on implementing user **facility area access**, **REST/SOAP APIs** for activity logs, and automated **SSL certificate** generation and updates on devices. **Optimized** API response times by **up to 95%** through either logic or SQL query optimization. Engaged in **daily client communication** to understand requirements, provide updates, and align on project goals. Trusted with the **responsibility** of deploying releases on production servers, ensuring seamless integration with the front-end team primarily using Angular 2.x+.

- **Nexus Property Connect**　　　　　　　　*2024 - Present*
Tools: Spring Boot, Spring MVC, Security, Hibernate, PostgreSQL, Solr, Docker, Flyway, REST API

  ○ Developed Spring Boot APIs and implemented business logic for referral lifecycle, commission, and network fee calculations. **Created APIs** for the real-time agent dashboard **visualizing** year-on-year sales trends by location and referral type. Implemented **role-based authentication**, and a role directory with **filtering and sorting** for agent details per company specifications.

EXPERIENCE

- **Associate Consultant [ ]**　　　　　　　　*March 2023 - Present*
Inexture Solutions Ltd.　　　　　　　　Ahmedabad, Gujarat
  ○ Developed robust and efficient back-end applications while being responsible for **client communications** and Scrum calls to prioritize their needs, working in an Agile environment, and ensuring high-quality solutions.

- **Internship [ ]**　　　　　　　　*March 2022 - September 2022*
Axisray Inc.　　　　　　　　Ahmedabad, Gujarat
  ○ Gained hands-on experience working **internal and live projects**, assisting senior developers and mentors with their day-to-day tasks.

EDUCATION

- **Gujarat Technological University**　　　　　　　　*2018 - 2022*
B.E. Information & Communication Technology　　　　　　　　Ahmedabad, Gujarat
  ○ CGPA: 8.20/10.00

VOLUNTEER EXPERIENCE

- **Cadet Warrant Officer**　　　　　　　　*2019 - 2022*
National Cadet Corps (NCC)　　　　　　　　[ ]
- **Public Relations Volunteer**　　　　　　　　*October 2022 - Present*
BAPS - Pramukh Swami Maharaj Centenary Celebrations　　　　　　　　[ ]
